

VIRTUAL BEER TASTING

with Lost Grove Brewing

ABOUT US:

Located in downtown Boise, Lost Grove Brewing opened its doors in October 2017. Brewing a wide range of craft beer on our ten barrel system, we are built on the foundation that beer brings people together. Our mission is to strive for sustainable practices that help the environment through sourcing locally and reducing waste; socially responsible efforts that positively impact our communities through connection and support; and brewing recipes that create really great beer to tie it all together. We work tirelessly to join these components to help us leave the right footprint as we seek our own lost groves.

VIRTUAL TASTING EXPERIENCE

Due to COVID-19, meeting as a team or taking clients out can be difficult, to say the least. We have developed a unique virtual tasting experience sure to encourage team-building with your employees. The tastings are led by our owner and founder, Jacob Black. With over 10 years experience in the craft beer world, Jake will guide your team through six different beer tastings; provide a look into the brewing process and history behind Lost Grove Brewing; tell some stories behind our not-so-normal beer names; all while creating a fun environment for interaction and questions. This experience is completely customizable and are excited to work with you to build the best experience for your team. We will package and deliver the beer, tasting notes, and swag anywhere in the Treasure valley.
